
Environmental Communication

**NET SHAPED
SOLUTIONS**

COLD FORGED PERFORMANCE

The overall aim of the
Net Shaped Solutions
Environmental
Management System
(EMS) is to:

1. Support
Environment
Protection
2. Prevent Pollution

NET SHAPED SOLUTIONS ENVIRONMENTAL POLICY

Net Shaped Solutions Inc. is committed to conducting its business in an environmentally sound manner. It is the policy of the Plymouth/Canton facilities to strive for compliance with all applicable laws and regulations and to do everything reasonably possible to provide machinery, equipment, procedures and rules designed to make our workplace and the environment safe, healthy, and environmentally benign.

The Company is committed to preventing pollution and continually improving its environmental performance. This will be achieved through an environmental management system at all levels within the organization that provides the framework for setting and reviewing environmental objectives.

**The Significant Aspects
of the NET SHAPED
SOLUTIONS Inc.
Environmental
Management System
are:**

Manufacturing – including parts washing, movement of oil and waste water-oil, and handling of paints, solvents, and universal waste.

Bulk Storage & Material Handling - Incoming (new products) and outgoing (waste products)

Waste Disposal – includes liquid and solid (hazardous and non hazardous material).

Vendor / Subcontractor Services

OIL / CHEMICAL SPILL

Emergency Action Response

1. Clear areas of personnel, equipment and potential ignition sources.
2. Identify chemical and quantity spilled. Locate Spill Kit and begin containment. If near outside drain, use drain covers.
3. Contact Area Supervisor and/or EMS Management Rep.
4. Continue to prevent migration to sewers, manholes, or other routes to the environment using spill response equipments (drain covers, absorbents, pads, oil dry, etc.)
5. Locate SDS Sheet for spilled chemical.
6. Await further instructions from supervisor or EMS Management Rep.
7. Immediately call **NSS management** for emergency clean up of spills greater than 55 gallons
